

MINOR IN ACTUARIAL SCIENCE

Minors offered by SCE

The university policy on minors appears in the "General Information" section of the undergraduate catalog. Students must include the minor in the degree plan no later than achievement of senior status. Minors must be completed as part of a planned degree program prior to graduation. Substitutions in a minor can be initiated by either the major- or minor-granting department, but must be approved by both departments. A minor is displayed on the transcript after graduation but is not displayed on the diploma.

Minors are not required of any students and must not extend beyond the total number of required hours for program completion (120 for most SCE majors; 122 for computer science; 132 for computer engineering). For each minor, students must complete at least 15 hours with at least 9 of those hours drawn from 3000- and/or 4000-level course offerings. All courses for minor credit must be completed with a grade of "C" or above.
